

[companyprofile]

Since its founding in 1999 by a team of highly experienced engineers and industry experts in Health, Safety and the Environment (HSE), TECHNO has been at the forefront in providing innovative project and management service solutions to clients throughout the world.

TECHNO's specialists have consolidated their experience in project management and are skilled at successfully leading and managing multi-sectorial and multi-disciplinary projects.

Due to our established reputation for quality, TECHNO has become an indispensable partner to companies that operate in such varied areas as the: construction, petrochemical, manufacturing, agro-industrial, energy, shipping, road transport, trading and service fields. We are committed to delivering the highest safety, environment and property management standards.

Certificato N° ER-0387/2014

Certificato N° SST-0095/2014

CONFINDUSTRIA ROMAGNA

[marketsectors]

We can provide engineering, consulting, surveying, auditing, due-diligence, monitoring, training and project management services in the following industries:

- Construction and civil works
- Mechanical assembly
- Manufacturing
- Oil & Gas
- Mining and metals
- Petrochemical and refining
- Power generation / Renewable energy
- Shipping
- Shipbuilding and harbour commercial terminals
- Municipal utilities
- Logistics
- Agribusiness
- Meat packing
- Tourism and leisure industry
- Public health
- Sport and recreational structures
- Education
- Telecommunication
- Insurance
- Commercial diving
- Water industry
- Decommissioning
- Dredging, coastal engineering and port construction

So far, TECHNO has successfully completed mono and multidisciplinary projects for its clients in Italy and abroad, in: Albania, Algeria, Belgium, Brazil, Bulgaria, Croatia, Egypt, France, Great Britain, Ireland, Kazakhstan, Libya, Mozambique, Oman, The Netherlands, Serbia, Slovenia, Spain, South Africa, Russia, Tunisia and Turkey.

The parent company INTEGER Ltd is headquartered in London (UK). Operational partner and representatives are based in Brazil, Mozambique, The Netherland and South Africa.

TECHNO has been awarded by Confindustria (Italian manufacturing and service companies association) the prestigious EXCELSA 2012 prize for its international development activities.

TECHNO specialists are executive members of the international decommissioning advisors network ReWorx.

www.re-worx.net

The operational capacity of Techno is based on a permanent staff of approximately 25 people, who are supported on specific activities and projects by over 60 regular partners (freelancers, professional firms, engineering companies).

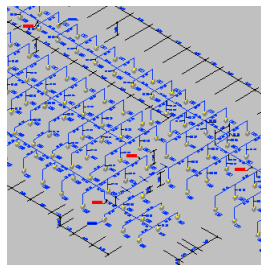

> occupational **health+safety** <

- Chemical, physical, biological hazard identification, risk assessment and mitigation
- Working equipment and machine guarding
- Electrical safety
- Noise and vibration
- Workplace ergonomics and VDU
- Thermal stress
- Manual handling and mechanical lifting and handling
- Safety in hazardous substances transport (ADR, IMDG, ADN, RID, ICAO)
- REACH
- Safety coordination at temporary and mobile yards
- Emergency response planning
- Lighting and indoor air quality
- Permit-to-work management
- Work at height
- Confined Spaces
- PPE and safety signs
- Subcontractors qualification and auditing

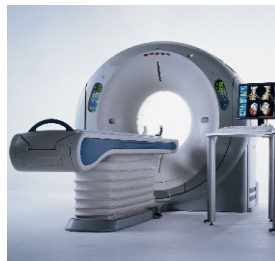

> **fire**engineering <

- Fire risk assessment
- Design of fire detection and fire fighting systems
- Major accident hazard analysis
- Area classification studies (ATEX)
- Safety data sheet and technical specification on firefighting equipment
- Design of fire system seismic support
- Surveys and testing
- Permitting
- Fire Safety Engineering (FSE)
- Lightning assessment

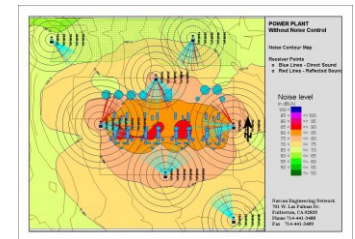

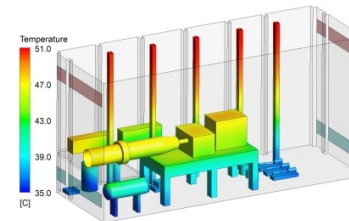

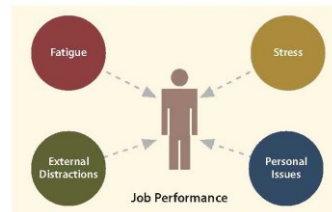

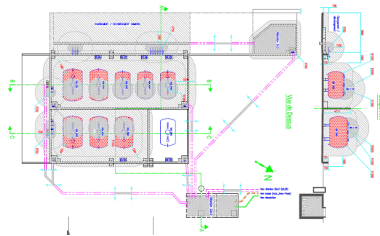

> ionizing radiation + NIR <

- Radiation protection in the public health and industrial fields
- QE appointment
- Quality control of equipment
- Assessment of contamination levels
- Design of shielding systems
- Natural and artificial optical radiations
- Electromagnetic fields
- Radon

> riskanalysis+design <

- HAZOP, HAZID, HAZAN analysis and report
- Safety signs layout
- Fire protection layout
- Life saving equipment layout
- Escape, Evacuation and Rescue Assessment (EERA)
- Natural ventilation study
- QRA/SIL studies and report
- Dropped objects analysis and management
- Evacuation and rescue plan
- Toxic substances inventory and management
- Equipment noise level emissions evaluation
- Human factors analysis
- Seveso Directive

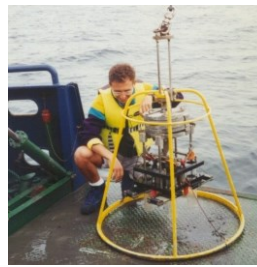

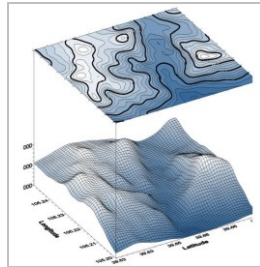

> **acoustical**engineering <

- Building acoustical design, mitigation and site assistance
- Building acoustical testing
- Acoustical climate assessment
- Acoustical impact forecast and evaluation
- Noise control analysis of public entertainment premises
- Acoustic expertise

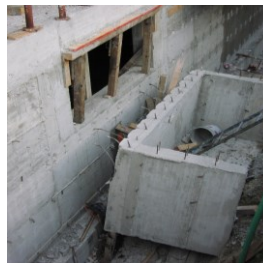

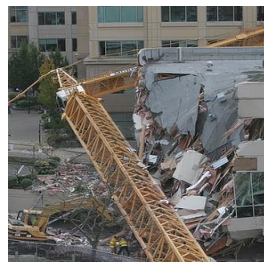

> **environmental**engineering <

- Environmental impact identification studies (ENVID)
 - Remediation of contaminated sites
 - Site monitoring and sampling
 - Design of treatment plants
 - Environmental monitoring and sampling
 - Analytical determinations
- Environmental management in construction yards
 - Accidental spill preparedness and recovery plans
 - Permitting
 - Waste plan and management
 - Onshore and offshore geomatics and geophysics surveys
 - Unexploded Ordnance (UXO) Surveys

> **forensicengineering** <

- Root cause analysis (RCA)
- Fire investigation
- Structural and static analysis
- Stress analysis
- Metallurgical and material analysis
- Instrumental measurements and graphic rendering
- Accident reconstruction
- Visual inspection, destructive testing and NDT
- Litigation and insurance support

> **asset**management <

- Assistance in the fulfilment of technical-administrative requirements for buildings and technological plants
- Earthquake engineering (design, inspection, retrofitting)
- Scheduling and supervision of maintenance, adjustment, restoration activities, etc.
- Building safety
- Surveys and technical specifications
- Supervision and assistance to activities and tests
- Building technical documents draft
- Energy, environmental and safety due diligence

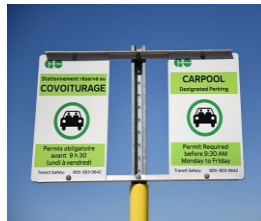

> **GRC**management+**sustainability** <

- ISO 9001, ISO 14001, ISO 45001, ISO 50001 management systems
- VCA (Veiligheid gezondheid en milieu Chechlist Aannemers) and SCC (Safety, health and environment Checklist Contractors) management systems
- Gap analysis
- Workplace and organizational upgrading plans
- Behaviour based safety (BBS)
- Pre-certification auditing and testing
- Sustainability Report
- Energy Audit
- LCA and Carbon footprinting
- Circular Economy

> **mobility**management<

- Area Public Transport analysis
- Employees mobility mode and Company needs analysis
- Sustainable transportation basics, intermodal transport and smart mobility coaching
- Corporate awareness campaigns on sustainable mobility
- Company mobility policy
- Technical and organizational solutions for smart mobility
- Company mobility plans
- Eco-driving training

> training <

- Training needs analysis and planning
- Training and refresher course organization
- Development of educational instruments
- First Aid and emergency response training courses
- University courses
- Post-graduate 1st and 2nd level master courses

Download the training course catalogue at:

www.techno-hse.com

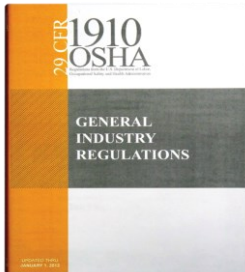

Info at: **academy@techno-hse.com**

> international assistance <

- General legislative framework analysis
- Research of local legislation on specific productive sectors
- Research of international and local technical standards
- Good practice research for production activities
- Due diligence, auditing and gap analysis in compliance with the local legislation
- HSE supervision and monitoring activities with local personnel
- Search of local suppliers for PPE, safety equipment and training sessions

All services are available for Sub-Saharan Africa, Central Asia, Balkans, Middle East and South America through local partners based in Brazil, Croatia, Kazakhstan, Mozambique, Netherlands and South Africa.

> publishing+graphics <

- Technical publishing
- Corporate manuals
- Visual communication
- Multimedia support for training
- Company safety cards and safety plans
- Safety leaflets
- Safety alerts and fact sheets

> research+development <

Due to our on-going commitment to research and development, TECHNO has not only continued to provide seamless quality services to its clients but has also become a full-fledged partner in multiple firms.

TECHNO's clients benefit from our unique network of permanent cooperation agreements forged with universities and prestigious research institutes in Italy and abroad for the development of HSE-related advanced research programs. Through our guided research-industry interaction efforts, we can offer state-of-the-art expertise, know-how and valuable human resources.

Agreement signed with:

- University of Ferrara: Department of Engineering
- WA.CO.MA (University of Bologna)

Since its establishment TECHNO has operated with hundreds of Clients among which:

+ 39 CLAN DES TEAM CHALLENGE spa - Milano (team America's Cup)

A.I.S. srl - Ferrara (industrial assembly)

ABR IMPIANTI srl - Ravenna (electro-instrumental systems)

ACMAR scrl - Ravenna (civil and industrial construction)

ACOMON spa - Ravenna (fine chemicals)

ADDESTRA srl - Faenza (RA) (training centre)

ADRI MAR srl - Ravenna (shipping company)

AEROTECNO scarl - Bologna (airport global services)

AGIP Gas spa - Milano (LPG storage)

AGIP Petroli spa - Milano (oil products)

AGRIPARADIGMA srl - Ravenna (analysis and research laboratory)

AICS - Maputo (Mozambique) (Italian Cooperation and Development Agency)

ALLIANCE MEDICAL DIAGNOSTIC srl - Lissone (MB) (healthcare)

AMBIENTE spa - Milano (waste thermodestruction and environmental services)

AMBIENTE MARE spa - Ravenna (liquid waste treatment)

ANSALDO spa - Genova (energy field)

ANTHOS IMPIANTI srl - Imola (BO) (installation, maintenance and services for dental equipment and machinery)

APARTHOTEL COSTA PARADISO - Lido Adriano (RA) (tourist accommodation facility)

AQSEPTENCE GROUP srl - Lugo (RA) (filtration and separation systems)

ARCHIDIOCESI DI RAVENNA

ARGECO spa - Bologna (recovery of non-hazardous solid waste)

AUSL - Imola (BO) (health care facilities management)

ATUROTA' PORTUALE DI RAVENNA - Ravenna

B. ENGINEERING srl - Campogalliano (MO)
(automotive)

BAKER HUGHES srl - Cepagatti (PE) (oil & gas integrated services)

BANCA D'ITALIA - Ravenna

BANCA DI ROMAGNA spa - Faenza (RA)

BARTOLINI spa - Bologna (logistics)

BASIS ENGINEERING srl - Milano (multidisciplinary engineering)

BENTINI CONSTRUCTION spa - Faenza (RA) (civil and industrial construction)

BERGEN ENGINEERING srl - Genova (cogeneration plants)

BIESSE SISTEMI srl - Ravenna (automation systems)

BILFINGER WATER TECHNOLOGIES srl - Lugo (RA)
(filtration equipment)
